

Indian Coffee

____ SOURCING EXCELLENCE ____
IN EVERY BEAN

Consistent Quality • Authentic Origins • Export Ready

INTRODUCTION

Connecting India's Best with the World

Daali Enterprises is an ISO 9001:2015 certified company based in India. We are one of the leading merchant exporters, supplying a carefully selected range of processed foods, agricultural products, dehydrated ingredients, and home textiles to buyers across the globe.

With a strong sourcing network and a focus on quality, we cater to both bulk and private label buyers in multiple sectors. Our product line includes Indian coffee, dehydrated onion and garlic, fresh grapes, guar gum, and a variety of home textile products like towels, bathmats and bathrobes.

ABOUT US

Your Partner in Global Trade

Daali Enterprises is built on consistency, transparency, and long-term trade relationships. We work closely with certified manufacturers and farmer cooperatives, ensuring every product meets global standards in terms of safety, hygiene, and compliance.

Our coffee exports are sourced from India's best-growing regions such as Chikmagalur, Coorg, Wayanad, and Araku. We offer a wide range of Arabica and Robusta coffees in both washed and unwashed forms, along with estate microlots, monsooned batches, and more.

We also supply high-quality dehydrated onion and garlic, fresh grapes, guar gum, and home textiles like towels, bathmats and bathrobes. All products are available with customized packing and private label support.

Vision

INTEGRITY | FLEXIBILITY | GROWTH

We see Daali Enterprises as more than just an export business. Our vision is to become a long-term trade partner for global buyers who value clarity in communication, flexibility in service, and integrity in supply. As markets evolve, we continue to invest in better sourcing practices, stronger logistics, and certified partnerships so our buyers can grow with confidence.

Mission

RELIABLE SUPPLY CHAINS - WITH CARE

Our mission is to build reliable supply chains that connect quality-focused producers in India with responsible importers around the world. We aim to deliver consistent, clean, and certified products backed by professional service and timely execution. Whether it is a bulk shipment of green coffee or a retail-ready pack of dehydrated onions, we treat every order with the same level of care.

Our Coffee Commitment

DELIVERING COFFEE WITH CARE & CONSISTENCY

India has a long tradition of coffee cultivation, and we are proud to be part of that heritage. At Daali Enterprises, coffee isn't just what we export; it's what we have built our name on. Every lot that leaves our hands carries the kind of care that doesn't show up on paperwork but matters all the same.

We work with importers, bulk buyers, private labels, and café groups who want reliable supply without the fuss. Whether you need green coffee beans, roasted coffee, or instant in bulk, we've got it sorted. Sourced from some of India's most consistent estates, graded well, and packed to move.

If quality matters to you, you'll find we're easy to work with.

OUR PRODUCT RANGE

Our product range covers every major coffee format for the bulk buyer. We've sorted everything by type, format, and how you'll probably end up using it.

**Green/Unroasted
Coffee Beans**

**Roasted
Coffee Beans**

**Instant
Coffee**

**Microlots &
Estate Coffee**

ARABICA: PLANTATION & CHERRY

Plantation: Fully washed, screen-graded, clean and balanced.

Cherry: Sun-dried, deeper, earthier edge.

ROBUSTA: PARCHMENT & CHERRY

Parchment: Washed, cleaner cup, structured.

Cherry: Sun-dried, bold, reliable for extraction and blends.

MICROLOTS, MONSOONED, PEABERRY LOTS

Microlots: Limited estate-sourced lots.

Monsooned: Aged during monsoon for mellow taste.

Peaberry: Round, dense, strong flavour.

GREEN COFFEE BEANS

**Sourced from estates and trusted processors.
Ideal for roasters, blenders and instant coffee makers.**

WHOLE BEAN

Best for fresh grinding, supplying to premium café and roaster.

GROUND COFFEE

Available in coarse, medium and fine grind size for various brew methods.

ROASTED COFFEE BEANS

Carefully handled at trusted facilities.
Ideal for cafes and available in bulk & private label.

SPRAY DRIED

Cost effective and versatile

AGGLOMERATED

Smoother, larger granules and mid-tier.

FREEZE DRIED

Highest grade, superior aroma and closed to brewed coffee in flavor.

INSTANT COFFEE

**Flavourful, aromatic, dissolves well.
Ideal for B2C types. It has strict solubility standards.**

Score Range	Cup Profile	Common Notes	Use Case
90+	Outstanding microlots	Complex, floral, jasmine, berry, structured	Top-tier cafés, auctions, exclusive roasts
87–89.99	Excellent	Tropical fruit, citrus, clean acidity	High-end roasters, single-origin features
85–86.99	Very Good	Chocolate, caramel, mild florals, stone fruit	Café blends, pour-overs, premium filter
83–84.99	Good	Nutty, mild cocoa, mellow acidity	Balanced espresso blends, retail filter
80–82.99	Fair/Acceptable for Specialty Standard	Woody, low acidity, body-driven	Entry-level specialty, chicory blends
Below 80	Not classified as specialty grade	Inconsistent, earthy, heavy	Instant, mass-market, bulk roasting

MICROLOTS & ESTATE COFFEE

**Seasonal, certified high-end roastery lots.
Washed, honey, natural, and experimental processing.
Q-grader certified, limited lots, and booked in advance.**

PACKAGING & SHIPPING

Container Loads:

- 20 ft: ~ 19 MT (320 - 340 bags)
- 40 ft: ~ 27 - 29 MT (470 - 490 bags)

Package Type	Capacity	Primary Use
Jute Bag	50-60 kg	Green coffee standard
Jute + GrainPro	50-60 kg	Specialty green coffee, moisture control
Multiwall Paper Bag	25-30 kg	Roasted and ground coffee
Vacuum Sealed Packs	05-10 kg	Estate microlots, high-value roasted lots
Jumbo Bag	500-1000 kg	Industrial bulk shipments

COFFEE PROCESSING METHODS

Coffee processing method influences everything, from cup clarity to aftertaste. We supply all the main styles, with consistency in grading and moisture levels (10-12%).

We work with producers who follow clean, consistent processing methods, and we keep moisture and grading within spec. Here's how each method is actually done at the origin.

Washed

- Cleanest style, fermented & washed.
- Mostly used for: Arabica Plantation and Robusta Parchment grades.

Natural

- Sun-dried in fruit, heavier body.
- Mostly used for: Arabica Cherry and Robusta Cherry grades.

Honey & Monsooned

- Honey: Skin removed, dried with mucilage.
- Monsooned: Aged in humid air over 2-4 months, mellow cup.

Experimental

- Anaerobic, barrel-aged, unique lots – limited volumes.

COFFEE CURING PROCESS

Once the coffee is harvested and dried, it goes through curing. This stage prepares it for export or roasting and has a direct effect on how clean and stable the final product will be.

Hulling

Removes parchment or husk

Polishing (Optional)

Silver skin removal

Screen Grading

Size sorting for uniformity

Density Sorting

Separates by weight

Bagging & Labelling

Export-ready packing

Manual Sorting

Final quality check

Colour Sorting

Removes visual defects

COFFEE GRADES & SCREEN SIZES

Coffee grading uses screen sizes (1/64"), ensuring consistency for roasting and blending.

Beans are screened and defects are removed, resulting in clean export-ready lots.

SL No	Arabica Grade	SC	Processing	Robusta Grade	SC	Processing
1	Mysore Nuggets – EB (Extra Bold)	SC >19	Washed	Robusta Kaapi Royale	SC 18	Washed (Parchment)
2	Plantation AA	SC >18	Washed	Robusta Kaapi Royale	SC 17	Washed (Parchment)
3	Plantation A	SC >17	Washed	Robusta Parchment AB	SC >15	Washed
4	Plantation B	SC >15	Washed	Robusta Parchment PB	SC >13	Washed

Notes: SC = Screen Size (1/64" inch mesh), PB = Peaberry, Bulk Grades are mixed-size, lower in uniformity but cost-efficient.

SL No	Arabica Grade	SC	Processing	Robusta Grade	SC	Processing
5	Plantation PB	SC >13	Washed	Robusta Parchment C	SC >13	Washed
6	Plantation C	SC >13	Washed	Robusta Parchment Bulk	Mixed	Washed
7	Plantation BULK	Mixed	Washed	Robusta Cherry AAA	SC >19	Unwashed
8	Arabica Cherry AA	SC >18	Unwashed	Robusta Cherry AA	SC >18	Unwashed
9	Arabica Cherry A	SC >17	Unwashed	Robusta Cherry A	SC >17	Unwashed
10	Arabica Cherry AB	SC >15	Unwashed	Robusta Cherry AB	SC >15	Unwashed

Notes: SC = Screen Size (1/64" inch mesh), PB = Peaberry, Bulk Grades are mixed-size, lower in uniformity but cost-efficient.

SL No	Arabica Grade	SC	Processing	Robusta Grade	SC	Processing
11	Arabica Cherry PB	SC >13	Unwashed	Robusta Cherry C	SC >14	Unwashed
12	Arabica Cherry C	SC >13	Unwashed	Robusta Cherry Clean Bulk	Mixed	Unwashed
13	Arabica Cherry Bulk	Mixed	Unwashed	Monsooned Robusta AA	SC >17	Monsooned
14	Monsooned Malabar AA	SC >18	Monsooned	Monsooned Robusta Triage	Mixed	Monsooned
15	Monsooned Malabar A	SC >17	Monsooned	---	---	---
16	Monsooned Arabica Triage	Mixed	Monsooned	---	---	---

Notes: SC = Screen Size (1/64" inch mesh), PB = Peaberry, Bulk Grades are mixed-size, lower in uniformity but cost-efficient.

WHERE COFFEE COMES FROM

GI certification offers traceability, consistent origin, and region-specific quality for premium blends or single-origin lines. We source across India's key coffee belts to ensure variety, reliability, and quality for your needs.

GI-Tagged Coffee	Region & State	Altitude (masl)	Key Cup Profile
Coorg Arabica Coffee	Kodagu (Coorg), Karnataka	900–1,200	Mild acidity, rich aroma, balanced body
Chikmagalur Arabica Coffee	Chikmagalur, Karnataka	1,000–1,500	Balanced acidity, clean cup, floral notes
Bababudangiris Arabica	Bababudangiri Hills, Karnataka	1,200–1,500	Mild body, sweet acidity, unique cup character
Araku Valley Arabica	Araku Valley, Andhra Pradesh	900–1,100	Fruity notes, mild acidity, organic profile
Wayanad Robusta Coffee	Wayanad, Kerala	700–900	Heavy body, low acidity, strong cup

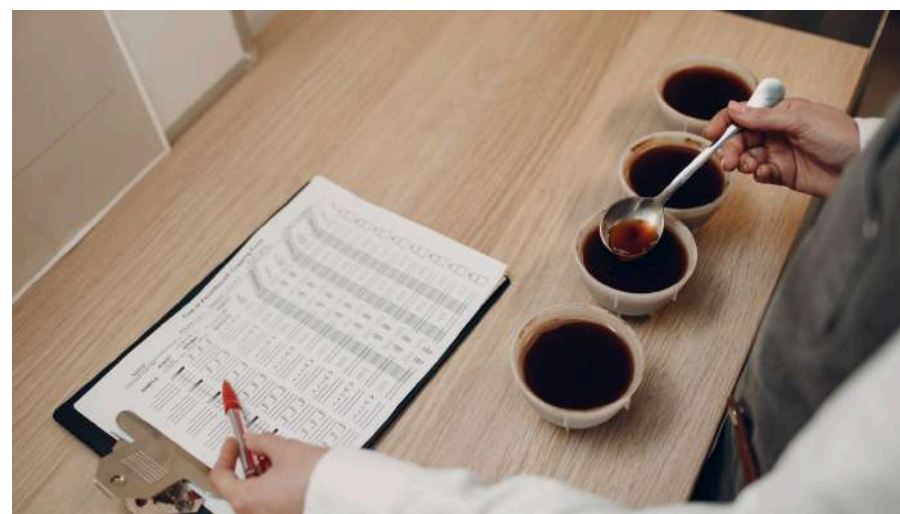

OUR COMMITMENT TO QUALITY ASSURANCE

Our commitment to quality begins with rigorous certification and continues throughout every stage. We are certified by the Coffee Board of India, APEDA, FSSAI, and ISO 9001:2015. Our partners maintain US-FDA registration and Halal, Kosher, BRCGS, ISO 22000, and FSSC certifications.

We ensure OTA compliance for Asia and EU MRL norms through mandatory lab testing, ensuring every shipment meets international safety and quality benchmarks.

WHY BULK COFFEE BUYERS CHOOSE US

Coffee Expertise:

Certified Q-graders ensure tasting, grading, and consistent quality.

End-to-End Handling:

From farm gate to shipping, we manage sourcing, sorting, packing, and logistics.

Flexible Packaging & Timelines:

From vacuum-sealed microlots to bulk jute, aligned to your needs.

Access to Exclusive Lots:

Early access to microlots, monsooned coffees, and exclusive estate lots.

Private Labels:

Custom blends, consistent roasting, and clean labelling support for your brand.

Let's Brew Possibilities!

If you're sourcing green coffee beans , roasted coffee beans, or instant coffee in bulk, we ensure consistent quality, timely delivery, and clear communication. Tell us your quantity, grade, destination, and timeline—we will share with you samples, specs, and pricing.
